

TOP 5 REASONS to Partner with Neptune

A Collaborative Approach to Creating
New Products — **Concept to Shelf**

1

Turnkey Formulations—with custom sourcing to meet your unique requirements for lipid-based products.

- + **Multiple qualified and validated ingredient sources and finished product manufacturing facilities**
- + Allows for seamless contingencies and utmost flexibility
- + Multiple packaging options delivering products the way you need/require them

2

Quality Materials

- + **3rd party testing of 100% of the ingredients coming in— and finished products going out**
- + Strive to find high quality ingredients sourced from global, reputable partners
- + All our fish oils are **IFOS** tested and sustainably certified by MSC or FOS

3

Validation—assure the right material is sourced for the right purpose

- + In-house scientific experts and technical support throughout the entire process—formulation, label claims, regulatory affairs
- + In-house product development support to collaborate with customers by developing customized innovative turnkey solutions

4

Invested in Novel Ingredients and Delivery Systems

- + **Proprietary clinically supported ingredients**
- + **Patented lipid delivery technology: MaxSimil helps increase digestion and absorption of fat soluble nutritional ingredients**

MaxSimil[®]

- + **Naturally flavored liquid fish oils and other lipids**
- + **Patented chewable softgel technology**

5

Experience—Avoid costly manufacturing pitfalls—manage the correct materials in the correct way!

- + **Work with a partner that has more than 30 years of scientific knowledge and experience to deliver your highest quality products**
- + **Knowledge of quality assurance, material handling, dosages, delivery format optimization ensures project timelines and product benefit objectives are met**
