Neptune Technologies & Bioresources Inc. to Present at the Roth OC Growth Stock Conference

Laval, Québec, CANADA – February 28, 2011 – Neptune Technologies & Bioresources Inc. (“Neptune”) (NASDAQ.NEPT - TSX.V.NTB) announces that it will be presenting at the Roth OC Growth Stock Conference on March 15, 2011.

Neptune will be presenting at the 23rd annual Roth OC Growth Stock Conference (the “Conference”) to take place in California from March 13 to 16. Over 400 companies selected by Roth Capital Partners will be represented at the Conference and the organisers expect over 1000 buy-side investors. Neptune will present on March 15 at 12:30. Neptune presentation document will be made public on its website on the day of its presentation.

As of February 28, 2011, the Board of Directors of Neptune has decided to grant a total of 1,145,000 incentive stock options of Neptune to employees, officers and directors. Neptune incentive stock options have an exercise price of \$2.50 and a 3 year maturity. Insiders have been granted a total of 575,000 Neptune incentive stock options.

[About Neptune Technologies & Bioresources Inc.](#)

Neptune is an industry-recognized leader in the innovation, production and formulation of science-based and clinically proven novel phospholipid products for the nutraceutical and pharmaceutical markets. The Company focuses on growing consumer health markets including cardiovascular, inflammatory and neurological diseases driven by consumers taking a more proactive approach to managing health and preventing disease. The Company sponsors clinical trials aimed to demonstrate its product health benefits and to obtain regulatory approval for label health claims. Neptune is continuously expanding its intellectual property portfolio as well as clinical studies and regulatory approvals. Neptune’s products are marketed and distributed in over 20 countries worldwide.

[About Acasti Pharma Inc.](#)

Acasti Pharma is developing a product portfolio of proprietary novel long-chain omega-3 phospholipids. Phospholipids are the major component of cell membranes and are essential for all vital cell processes. They are one of the principal constituents of High Density Lipoprotein (good cholesterol) and, as such, play an important role in modulating cholesterol efflux. Acasti Pharma’s proprietary novel phospholipids carry and functionalize the polyunsaturated omega-3 fatty acids EPA and DHA, which have been shown to have substantial health benefits and which are stabilized by potent antioxidants. Acasti Pharma is focusing initially on treatments for chronic cardiovascular conditions within the over-the-counter, medical food and prescription drug markets. Acasti is in the process of listing its common shares on the TSX Venture Exchange.

[About NeuroBioPharm Inc.](#)

NeuroBioPharm is pursuing pharmaceutical neurological applications, and a clinical study for a medical food product with a multinational partner is already initiated. The development of a prescription drug candidate is currently in progress. Advanced clinical development and commercialization is planned to be carried out with multinational partners.

"Neither Nasdaq nor the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release."
