Neptune Receives Additional \$5 million Insurance Payment

Laval, Québec, CANADA – August 26, 2013 – Neptune Technologies & Bioresources Inc. (“Neptune” or the “Corporation”) (NASDAQ:NEPT - TSX:NTB) announces that it has received an additional \$5 million in insurance related to the November 2012 incident which destroyed the Corporation’s production facilities in Sherbrooke, Quebec. This is in addition to the \$6.7 million Neptune received as of May 31, 2013, bringing the total recoveries to date to \$11.7 million.

As previously disclosed, Neptune has insurance in place covering, among other things, property damage, business interruption and general liability up to specified amounts and subject to limited deductibles and certain exclusions. “Today’s announcement further solidifies our financial position as we continue to implement our overall action plan to resume operations,” highlighted Mr. Andre Godin, CFO at Neptune. “The \$11.7 million insurance received to date represents only part of the total potential compensation of \$15 to \$20 million. We will continue to pursue the balance of our insurance claims and expect further recoveries, which will be announced if and when received.”

About Neptune Technologies & Bioresources Inc.

Neptune is a biotechnology company engaged primarily in the development and commercialization of marine-derived omega-3 polyunsaturated fatty acids (“PUFAs”). Neptune has a patented process of extracting oils from Antarctic krill, and principally sells omega-3 PUFAs as bulk oil to Neptune’s distributors who commercialize them under their private label primarily in the U.S., European and Australian nutraceutical markets. Neptune’s products generally come in capsule form and serve as a dietary supplement to consumers.

Through its subsidiaries Acasti Pharma and NeuroBioPharm Inc (“NeuroBio”), in which Neptune respectively holds 60% and 96% of the voting rights, Neptune is also pursuing opportunities in the medical food and prescription drug markets. Acasti Pharma and NeuroBio respectively focus on the research and development of safe and therapeutically effective compounds for highly prevalent atherosclerotic conditions, such as cardiometabolic disorders and cardiovascular diseases, and for neurodegenerative and inflammation related conditions. Acasti’s lead prescription drug candidate is CaPre[®], a purified high omega-3 phospholipid concentrate derived from Neptune krill oil being developed to address the prevention and treatment of cardiometabolic disorders, including hypertriglyceridemia, which is characterized by abnormally high levels of triglycerides.

Forward Looking Statements

Certain statements included in this press release may be considered forward-looking information within the meaning of Canadian securities laws and forward-looking statements within the meaning of U.S. federal securities laws, both of which we refer to as forward-looking statements. Such statements involve known and unknown risks, uncertainties and other factors that may cause results, performance or achievements to be materially different from those implied by such statements, and therefore these statements should not be read as guarantees of future performance or results. All forward-looking statements are based on Neptune’s current beliefs as well as assumptions made by and information currently available to Neptune and relate to, among other things, Neptune’s strategy, strategic goals, research and development activities, research and clinical testing outcome, future operations, future financial position, future revenues/results, projected costs, prospects and plans and objectives of management.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this press release. Due to risks and uncertainties, including the risks and uncertainties identified by Neptune in its annual information form dated May 29, 2013 and in its other public securities filings available at www.sedar.com and www.sec.gov/edgar.shtml, actual events may differ materially from current expectations. Except as required by law, Neptune disclaims any intention or obligation to update or revise any forward-looking statements.
